SKILLS

- Open-minded
- Teamwork
- Problem solving
- Adaptability
- Communication

LANGUAGES

- English: Advanced
- Farsi: Native speaker
- Danish: In process of learning

HOBBIES

- Reading
- Socializing and traveling

NILOUFAR KHAEFI

ABOUT ME

I was born in 1997 in Iran. I came to Denmark in 2022 because of my husband's job. I start studying frontend development since October 2022 and recently I finished a JavaScript course at ReDi School.

EDUCATION

Hack Your Future Denmark-October 2023

Hack Your Future is a renowned non-profit organization that empowers individuals to enter the field of web development, providing a supportive and inclusive learning environment. The program is designed to equip students with practical skills and knowledge to thrive in the industry.

Technologies Covered:

- HTML5 and CSS for web page creation and styling
- JavaScript and its fundamental concepts
- Git for version control and collaboration
- Command Line Interface (CLI) for system interaction
- Responsive web development techniques
- Node.js for server-side programming
- React for building user interfaces
- Database management and SQL
- RESTful API creation
- Collaboration using Scrum methodology
- Modern software development tools and best practices

Javascript course at ReDi School-March 2023

In Redi School, I have learned the fundamentals of JavaScript with regard to terminology and hands-on skills. At the end of the semester, I was able to code a project myself in JavaScript. My learning targets include; the theory of HTML and CSS, JS interaction with HTML, basic building blocks, functions, variables, arrays, loops, and objects. We worked in teams and with Scrum Master methodology. We also learned how to work with Github.

React course at ReDi School -September 2023

In the React course at Redi School, I mastered the fundamentals of React, including components, conditional rendering, hooks (state, effect, context), and React routing. I also refined my teamwork skills using Scrum methodology and learned to manage code collaboratively with GitHub. This comprehensive training has prepared me to create dynamic, interactive web applications with React and work effectively in development teams.

Bachelor of textile engineering, at The University of Technology in Isfahan, Iran - 2017-2021

I hold a bachelor's degree in textile engineering from Iran, with expertise in spinning, knitting, dyeing, printing, and fabric finishing, along with a strong focus on product detail and knowledge in economics and entrepreneurship.
